

Summit Boilerplate

149 Words

Join us at the 2022 [CGHI Bio Innovation Summit](#) on October 11th at Mercedes Benz Stadium! For more than 20 years Georgia Bio – now an Office of the Center for Global Health Innovation (CGHI) – has presented Georgia's premier bioscience and medtech conference, hosting 500+ CEOs, senior executives, scientists, and public policy officials from Georgia and across the nation. Previously known as the Georgia Bio Innovation Summit, this summit is the largest state bioscience conference in the Southeast.

This year's keynotes are **Dr. Julie Gerberding**, CEO of the Foundation for the National Institutes of Health (FNIH), and the CEO of Novartis, **Dr. Vas Narasimhan**. Additionally, we have prepared **16 high-profile sessions** over the course of the event, listed on the following pages. Breakout sessions will focus on 4 main tracks, including the **Life Sciences Ecosystem, Biopharma & Drugs, Medical Device & Digital Health, and Innovations**.
